"Yes—no—that is—in fact it was quito a love match but there is some tale D'Almayne has picked up about their disagreeing."

"She seemed a poor doll," remarked Miss Crofton, thoughtfully. "Not likely to hold such a dashing young fellow as her husband."

"My cousin Alice is not a poor doll, Arabella. She is a dear, good-hearted creature-I wish I was as good-but she is too meek and gentle." "Well, meckness and gentleness are all very well in their way," replied Miss Crofton, "but they don't do with

We have given the above long conversation between the two ladies, as it serves to explain something of the past, and may be used as a guide for the future. It explains Kate's influ-ence over D'Almayne, and where she obtained it. Miss Crofton had been a long while upon the continent in good families, and when Kate wrote to her to announce her marriage, and mentioned Horace D'Almayne, she guarded Kate's heart by a few incidents in connexion with that gentle-

man, which had come to her ears. We must trouble the reader to follow Miss Crofton a little beyond the above conversation, by glancing at some of her thoughts—after she had retired to hed. That lady, who was by nature rather unscrupulous, had imbihed no small share of continental morality, Perhaps it may be timidly whispered, we are not altogether pure in England; but at all events we are careful to keep up surface morality, hy which some respect is shown for virtue. Several felters from Southern merchants have been shown me, addressed to parties here, whose only objection is their abolition tendencies, declining all further volume, both as regards style and material intercourse, and it is thought that the feeling of distrust and dissatisfaction, has not by any means reached its culminating point.

Rey, Dr. Achilli, the convert from Roman Catholicism, celebrated for his eloquent controversies, in England, with Cardinal Wiseman, on this subject, was recent ly the victim of an alleged malicious prosecution on the part of one or two indielduals who desired to worm out of him an important secret. It is now an accepted medical fact that wherever douth or disagreeable consequences have resulted from the conployment of these unistle tie agents, it has been owing to the want of a proper mixture of atmospheric air, and the peculiar feature of the favention is in a simple arrangement whereby this desideratum is secured.

A WORD TO INVALIDS.

E-All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say few words on the choice of a physician. And first, tet all quanks, imposture and humbys alone. If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient longth of time, and he will probably cure you; if not, then apply to one who makes your disease a specialty, for no, physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as ancestfully sad one of the same ability who makes such diseases, as pecialty, and devotes his whole attention to them. Educated physicians hitherto have stond about from making private diseases a geomety, and hence they have been monopolized by quarks.—The fear of losing caste in suclety, or of being classe of among charlatans by the profession, has no long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treating general practice? Ricord of Paris, and Actor of London, outhous the Priente Diseases a specialty, and yether finners an envisible as it is world-wide. It is in fact the only reacely for one of the most helpous and destructive systems. A WORD TO INVALIDS. To the Ladies.

All such, in every instance, are fraude, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize.
